ACOUSTICAL WALL & CEILING PANELS

L210

HIGH IMPACT WALL & CEILING PANELS

Livello acoustical wall and ceiling panels are designed to solve your acoustical needs while enhancing the aesthetic of your space. With a variety of options to choose from, including various sizes, shapes, fabrics and colors, it's easy to create the perfect solution for your reverberation sound problems.

L210 High Impact Panels are ideal for environments that combine the need for superior acoustical performance and resilience to high traffic areas.

L210 panels provide excellent acoustical performance with NRC ratings as high as 1.05. Panels are constructed using a 6-7# rigid fiberglass absorber core laminated to 16-20# PCF high-impact fiberglass and are available in a variety of sizes, thicknesses and edge styles.
