ACOUSTICAL WALL & CEILING PANELS

## L310

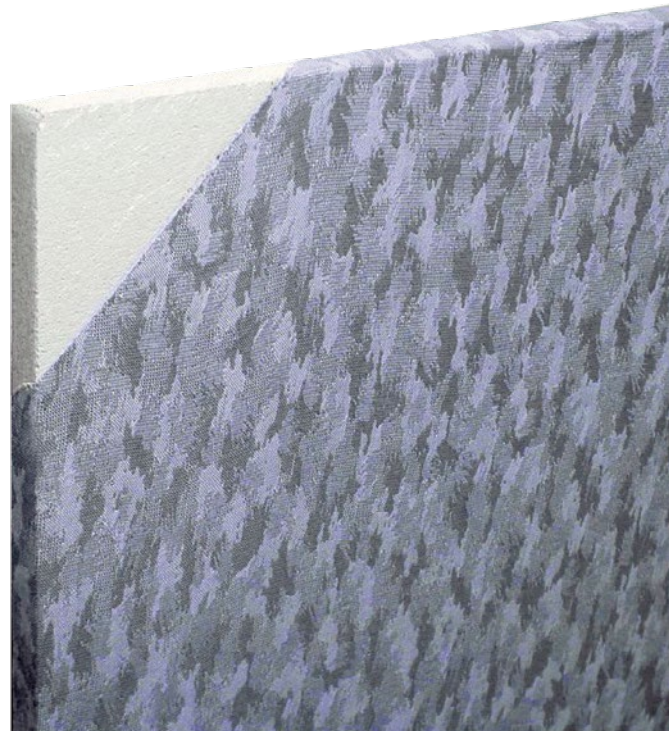

### TACKABLE WALL PANELS

L310 Tackable Wall Panels are manufactured specifically as a tack panel that offer minor sound absorption. L310 panel applications include conference rooms, classrooms, offices or any environment that requires a highly tackable wall solution.

L310 panels are constructed with a 24# PCF mineral fiber core and are available in a variety of sizes and thicknesses.
